

QUICK FDS WEBSITE CONNECTION INSTRUCTIONS

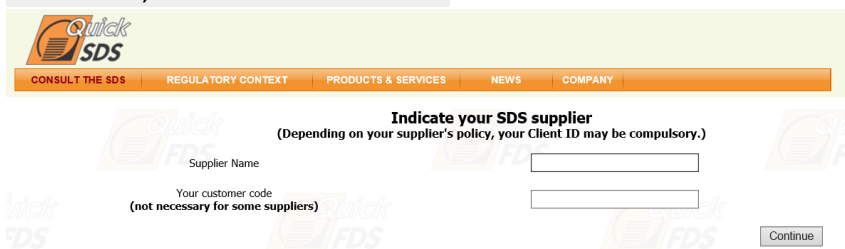

You want to download SDS on the web site www.Quick FDS.fr
Please follow the instructions below.

1/ on the homepage, fill the identification fields (company, name and e-mail address), then click to Continue.

The screenshot shows the 'Identification' section of the Quick FDS website. It features a navigation bar with links: CONSULT THE SDS, REGULATORY CONTEXT, PRODUCTS & SERVICES, NEWS, and COMPANY. Below the navigation bar, there is a 'Language' dropdown menu set to 'English - [EN]'. The main form area is titled 'Identification' and contains three input fields: 'Your company', 'Your name', and 'Your e-mail address'. A note below the email field states: 'Your e-mail address will allow us to send you any update of the documents you are going to look at.' A 'Continue' button is located at the bottom right of the form.

2/ in the field "your supplier" enter **axson** and in the field "your customer code" enter **techaxson**, then click to Continue.

The screenshot shows the 'Indicate your SDS supplier' section of the Quick FDS website. It features a navigation bar with links: CONSULT THE SDS, REGULATORY CONTEXT, PRODUCTS & SERVICES, NEWS, and COMPANY. Below the navigation bar, there is a section titled 'Indicate your SDS supplier' with a sub-note: '(Depending on your supplier's policy, your Client ID may be compulsory.)'. There are two input fields: 'Supplier Name' and 'Your customer code (not necessary for some suppliers)'. A 'Continue' button is located at the bottom right of the form.

3/ top left, click on AXSON TECHNOLOGIES.

The screenshot shows the 'Quick-FDS®' section of the website. It features a navigation bar with links: CONSULT THE SDS, REGULATORY CONTEXT, PRODUCTS & SERVICES, NEWS, and COMPANY. Below the navigation bar, there is a section titled 'Quick-FDS®' with a sub-note: 'Select your supplier:'. There is a list of three suppliers: 'AXSON REVOCOAT', 'AXSON COATINGS', and 'AXSON TECHNOLOGIES'. The 'AXSON TECHNOLOGIES' option is highlighted.

You can consult from now all our safety data sheets.
