

SPARTITE®

POURABLE RESILIENT MAST CHOCK THAT SEALS
AND SUPPORTS THE MAST AT THE PARTNERS

SPARTITE®

The solution to securing and sealing the mast at deck level.
Helps keep the mast up and the water out.

MAIN FEATURES

- Pre-measured two-part polymer poured into the cavity between the mast and the partners, while the mast is in the boat
- Ensures secure and correct mast position at the partners all season long
- Makes correct placement of the mast in the partners automatic whenever the mast is re-stepped
- Makes a one piece, perfect fitting mast chock that replaces archaic wedges
- Eliminates point loading and gives full even support around the mast
- Dramatically reduces leaks at the partners
- Stays on the mast when the mast is resteped
- Easy to use
- Each kit comes with complete instructions and materials for the yard or yacht owner to build a simple mold out of even the most complex partners or mast collar
- Spartite® is endorsed by spar manufacturers, boat builders, and riggers, and is perfect for any keel step mast

SPARTITE® IS AVAILABLE IN TWO KIT SIZES

- Kit 1 (small) = 51 cu.in. (836 cu. cm)
- Kit 2 (large) = 102 cu. In. (1,672 cu. cm)
