

# HH EXTREME

TRANSLUCENT CASTING URETHANE

BUILDING TRUST

# HH EXTREME

Specifically designed for the handhold market in the climbing industry, HH Extreme has been formulated for the most rigorous climbing conditions and will hold up to the extremes of usage

## MAIN FEATURES

- Fast setting polyurethane system that is extremely versatile, tough, and durable
- Well-balanced combination of physical properties and ease of use
- Can accommodate uneven surfaces without fracturing
- Impact, wear and moisture-resistant
- Translucent color is easily tintable / high color fidelity
- Easy to pigment; accepts variety of colors, including fluorescent colors
- Convenient 1:1 mix ratio
- 72 Shore D hardness
- Excellent moldability
- Good elongation
- Low viscosity
- Quick demolding time
- Room temperature casting

## HH EXTREME – CASTING & RAPID PROTOTYPING POLYURETHANE SYSTEM

Product	Brand	Pot Life (min/g)	Shore Hardness	Mixed Viscosity (cps)	Cured Color	Tg (°F)
HH Extreme A/B		2/94	72 D	350	translucent white	120
